

ARTICLE XX.

PLUMBING

The State Board of Health shall have general supervision of the administration and enforcement of those sections of the North Carolina Building Code relating to plumbing. It shall be the duty of the State Board of Health to review and revise or amend the plumbing code, designated as Article XX of the North Carolina Building Code, as may be deemed necessary by the State Board of Health after consultation with the North Carolina Building Code Council.

The North Carolina State Plumbing Code is being printed as a separate pamphlet by the State Board of Health and is designated at Article XX of the North Carolina Building Code.

Veneered Walls—Definition of (See under Walls).....	200
Ventilating Skylights	
Allowed for light and ventilation of rooms.....	501-2
Requirements for.....	504
Ventilating Systems	
In heretofore erected buildings.....	1905
Installation of.....	1100
Ventilation	
General requirements for.....	500
Of motion picture projection rooms.....	1202(g)(h)(i)
Ventilation, Mechanical	
Allowed for ventilation of rooms.....	501
Requirements for.....	505
Ventilators—Over stages.....	1201-9
Vents	
For gas appliances.....	1006
Vent Shafts	
For light and ventilation.....	503
Skylights over.....	923-4
Vertical Separation—Between exterior wall openings.....	920-2

W

Wainscoting—Wood, backing of.....	917-8
Walls	
Bearing wall, definition of.....	200
Bond:	
Cavity walls.....	907-8(d)
Concrete masonry unit walls.....	907-7(c)
Faced walls.....	907-9(d)
Hollow walls.....	907-8(d)
Hollow masonry unit walls.....	907-7(c)
Solid masonry walls.....	907-5(d)
Stone walls.....	907-6(c)
Structural clay tile walls.....	907-7(c)
Cavity walls.....	907-8
Cavity walls, definition of.....	200
Concrete, plain.....	907-11
Concrete masonry units.....	907-7
Corbeling of foundation walls.....	905-2
Curtain walls, definition of.....	200
Design for wind pressure.....	804-2
Enclosures for theatrical stages.....	1201-2
Faced walls.....	907-9
Faced walls, definition of.....	200
Fire partitions, definition of.....	200
Fire walls, definition of.....	200
Foundation walls.....	905
Foundation walls, definition of.....	200
Height of:	
Cavity walls.....	907-8
Concrete masonry unit walls.....	907-7
Fire walls.....	909
Hollow walls.....	907-8
Hollow masonry unit walls.....	907-7
Party walls.....	909
Reinforced concrete walls.....	908-7
Solid masonry walls.....	907-5

Walls—Continued

<i>Height of:</i>	
Stone walls.....	907-6
Veneered walls.....	912
Height limitation during construction.....	907-2(b)
Hollow wall of masonry, definition of.....	200
Hollow walls.....	907-8
<i>In Buildings of:</i>	
Fireproof construction.....	701-2
Heavy timber construction.....	703-1
Noncombustible construction.....	705-2
Ordinary construction.....	704-2
Semifireproof construction.....	702-2
Unprotected metal construction.....	707
Wood frame construction.....	706-2
<i>Lateral support of Masonry walls:</i>	
General.....	907-13
Of cavity walls.....	907-8
Of concrete masonry unit walls.....	907-7
Of concrete walls, plain.....	907-11
Of hollow masonry unit walls.....	907-7
Of hollow walls.....	907-8
Of plain concrete walls.....	907-11
Of solid masonry walls.....	907-5
Of stone walls.....	907-6
Of structural clay tile walls.....	907-7
Nonbearing walls, definition of.....	200
Of masonry units.....	907-7
Of pent houses.....	923-2
Of roof structures.....	923-2
Panel walls, definition of.....	200
Parapets.....	910
Party walls, definition of.....	200
Plain concrete.....	907-11
Protection of exterior openings in.....	920
Proscenium.....	1201-2;3
Reinforced concrete.....	908-7
Shaft enclosure.....	921-2
Solid masonry.....	907-5
Stone.....	907-6
Structural clay tile.....	907-7
<i>Thickness of:</i>	
Cavity walls.....	907-8
Change in thickness.....	907-2
Faced walls.....	907-9
Fire walls.....	909
Hollow masonry unit walls.....	907-7
Hollow walls.....	907-8
Party walls.....	909
Plain concrete walls.....	907-11
Reinforced concrete walls.....	908-7
Solid masonry walls.....	907-5
Stone walls.....	907-6
Structural clay tile walls.....	907-7
Veneered walls.....	912
Walls, Veneered—Definition of.....	200

	SECTION
Wall Openings—In fire wall and party walls.....	909-7
Wall Veneering.....	912
Wall and Ceiling Finish—For special occupancies.....	402-4
Water Closets—Access to.....	501-11
Water Level—Re footings.....	903-2
Waterproofing—Of foundation walls.....	905-3
Water Supply	
For sprinklers.....	1702-3
For standpipes.....	1701-7,8
Water Tanks.....	923-1,6
Weight of Building Materials.....	802
Welding	
On structural steel.....	914-3,10
Safeguards during construction.....	1311
Windowless Buildings	
Sprinklers required.....	1702-1(c)
Windows	
Bay, in ordinary construction.....	704-8
Dormer.....	923-5
Glass area required.....	502-1
Glass block.....	919
In a public building.....	501-3
In rooms.....	501
In stairways and corridors.....	501-8
Openable area.....	502-2
Required, for light and ventilation.....	501
Show—in ordinary construction.....	704-8
Window Openings—Arches or lintels over.....	907-2(f)
Window Protectives—Glass block.....	919-2(b)
Wind Pressure	
General requirements.....	804
Support of glass block panels.....	919-4(d)
Wind Stresses	
Reinforced concrete.....	908—2(c)
Structural steel.....	914-3(e)
Wood structural members.....	917-2(c)
Wires In Fireproofing of Structural Members	
In fireproof construction.....	701-1(b)
In semifireproof construction.....	702-1(b)
Wood	
Capping of piles.....	906-1(j)
Cornices.....	922-2
Creosote treatment of footings.....	903-2
Footings.....	903-2
Framing around chimneys and fireplaces.....	917-7
In masonry walls.....	907-2(h)
Piles.....	906-2
Structural members.....	917
Wood Columns	
In heavy timber construction.....	703-2
In ordinary construction.....	704-6
In wood frame construction.....	706-8
