

2020 Electrical Ad hoc Meeting

October 29, 2020 – Start 9 am

Purpose: To answer technical questions from the members of the Building Code Council concerning an upcoming D Item amendment to the NEC in the December meeting for perimeter equipotential perimeter bonding of swimming pools.

In attendance:

Kim Humiston – Meeting Sponsor / Council Member / Ad hoc Member - Virtual

Danny Priest – Council Member - Virtual

David Smith – Council Member - Virtual

Keith Rodgers – Council Member - Virtual

Mark Griffin – Ad hoc Member – Virtual

Pat Rose – Ad hoc Member – Virtual

Joe Starling – DOI Staff / Ad hoc Member – In Person

Reuben Clark – Public – In Person

Grayson Wiggins – Public – Virtual

Brian Taylor – Public – Virtual

Chuck Jensen – Public – Virtual

Gary Peele – Public – Virtual

Joe Grappe – Public – Virtual

Kurt Candler – Public – Virtual

Mark Ode – Public – Virtual

Marty Page – Public – Virtual

Wendy Purse – Public – Virtual

Lea Frederick – Public – Virtual

Significant Conversation: Kim Humiston began the meeting by showing a PowerPoint that was shown during the September 2020 BCC meeting. The issue about the perimeter bonding versus other types of bonding required for the equipotential system was discussed and clarified. David Smith asked about the NEC adoption process and Code Making Panel (CMP) conclusions. Joe Starling clarified that the current meeting was to clarify the Code language and practical installation requirements required by the current NEC and the proposal; speculation of CMP options were reserved for the Standing Committee Meetings on December 7, 2020 if the Chairs of the various Committees wish to entertain such arguments.

Meeting ended at 10:03 pm
