2020 NC Electrical Code

Article 100 Definitions as follows (220315 Item B-6):

Article 100 – Definitions

Coordination, Selective (Selective Coordination) Localization of an overcurrent condition to restrict outages to the circuit or equipment affected, accomplished by the selection and installation of overcurrent protective devices and their ratings or settings for the range of available overcurrents, ~~from overload to the available fault current~~, and for the full range of overcurrent protective device opening times ~~associated with those overcurrents~~.

Replace via Amendment with:

Coordination, Selective (Selective Coordination) Localization of an overcurrent condition to restrict outages to the circuit or equipment affected for fault current events that extend beyond 0.1 second, and accomplished by the selection and installation of overcurrent protective devices and their ratings or settings for the range of available overcurrents under such conditions, whether originating from overload, ground-fault or short circuit, and for the full range of overcurrent protective device opening times applicable to such events.

The delayed effective date of this Rule is January 1, 2024.

The Statutory authority for Rule-making is G. S. 143-136; 143-138.
