**Combustible Dust Housekeeping in Woodworking Facilities**

**Code:** 2018 Fire Prevention Code  
**Section:** 2203.2

**Date:** January 1, 2019

**Question:**

Is the owner of a woodworking shop required to follow NFPA 664 if they prepare a cleaning schedule promising to vacuum the shop everyday?

**Answer:**

Yes, Chapter 22 already requires a housekeeping procedure (Section 2203.2) in conjunction with Table 2204.1 which requires NFPA 664. The housekeeping procedure cannot replace the proper design identified in NFPA 664.
