

## **COURSE DESCRIPTION**

---

The Hazardous Material Technician certification course is a two-week course. Success for the candidate will require time outside of class to prepare for each section, and complete required reading, as well as engagement in supplemental information that is provided to support the text and classroom discussion. Instructors will provide insightful, real world experience to supplement the text and support the objectives. HazMat Tech is Direct Delivery internal request, but is currently not available for request on the OSFM website. Requests can be sent to Lance Foulk at lance.foulk@ncdoi.gov.

## **COURSE REQUIREMENTS**

---

Successful completion of the course requires a group origin & cause determination presentation, completion of all practical's, a final exam, as well as 100% attendance. Scheduling shall be coordinated with Lance Foulk for delivery of practicals and the written exam.

## **MATERIALS & EQUIPMENT**

---

- Full Turnout Gear & Helmet
- Air pack+ spare bottle
- Safety Glasses

## **PRE-REQUISITES**

---
