Application for Pyrotechnics Permit on State Property

4. This permit application must include the following information:

General Documentation Requirements

- A copy of pyrotechnic delivery agency insurance certificate (ACORD Form). The insurance certificate shall indicate the following:
 - The special event date and rain date
 - The physical address of the building or location of the special event.
 - The sponsor and the State of North Carolina noted as additional insured on the liability insurance certificate.
 - The North Carolina Office of State Fire Marshal as the Certificate Holder.
 - A minimum limit of liability of 1,000,000.
- A list of pyrotechnic effects including size and number of each different effect.
- A copy of the contract for services between the sponsor and the pyrotechnic company. The contract shall include the indemnification/hold harmless agreement in favor of the State of North Carolina for the duration of any activities related to the permitted event.
- A copy of the contract for services between the sponsor and the pyrotechnic company. The contract shall include the indemnification/hold harmless agreement in favor of the State of North Carolina for the duration of any activities related to the permitted event.
- Point of on-site assembly of pyrotechnic devices.
- Manner and place of storage of the pyrotechnic materials and devices
- A Site diagram of the Display Site indicating the following:
 - The location and dimensions of the discharge site.
 - The location and dimensions of the spectator viewing areas.
 - The location and dimensions of the parking areas.
 - The location and type of special hazards in the area.
 - The distance of the discharge site from any special hazard or special occupancy (institutional).
 - The location of emergency services.
 - The location of the magazine during set up and during the event.

Additional Indoor Pyrotechnic Documentation Requirements

- Material Safety Data sheets (MSDS) for the pyrotechnic materials to be used.
- Certification that the set, scenery, and rigging materials are inherently flame- retardant or have been treated to achieve flame-retardancy.
- Certification that all materials worn by performers in the fallout area during use of pyrotechnic effects shall be inherently flame- retardant or have been treated to achieve flame-retardancy.

Application for Pyrotechnics Permit on State Property

By signature I agree to report any change of the personnel, date, time, insurance status, location, dimensions, or distances, to OSFM within 24 hours of occurrence. No changes can be made to the permit application within 72 hours of the event.

I certify that all information contained herein, and all information and documents attached hereto, are accurate, true, and complete. My signature authorizes the North Carolina Office of State Fire Marshal to verify the answers I have given in response to items 1-4 above.
